The Main function of the State Information Commission is to implement Right to Information Act, 2005 by providing for setting out the practical regime of right to information for citizens to secure access to information under the control of a public authority, in order to promote transparency and accountability in the working of every public authority. There is no formal arrangement for consultation with or representation by members of the public in relation to the formulation of its policy or administration thereof in the Commission, however, the suggestions received from the activists and citizens are valued and considered.
